“ Penny,

Jenny and I were so sorry to hear of Chuck's passing. We enjoyed "hanging out" with you while we all lived in Minnesota. The New Year's Eve parties at your house were always a highlight and were so much fun! Thank you for letting our kids sleep in one of your bedrooms while we all played games, enjoyed beverages and even had breakfast several hours later!

Chuck's wisdom, advice and sense of humor were always welcome and have been missed. He was a great mentor and someone who I knew I could get a straight answer from regardless of the situation. He was willing to help at any time.

Our prayers are with you and your family.

“ Penny and family,
Lynn and I were very sorry to hear about Chuck's passing. I remember hiring Chuck in Marketing at Vickers about 1987. Chuck always had an "out of the box" view on things, and I really enjoyed discussing many issues with Chuck. I remember fondly many of the lunches we would have together with others from Vickers at the "abusive" restaurant in Rochester Hills. He was a very good engineer, and was very logical in forming thoughts. He shared good advice on many subjects with me. And after he retired we conferred over the years on a few wood working projects he got himself involved with. He will be missed by many people.

“ Penny, so sorry for your loss. I worked with Chuck when he joined Vickers. We had some great times together both at work on socially. Played golf together many times and enjoyed the banter at numerous parties with other Vickers colleagues. He'll be greatly missed. Rich Robertson

“ Our hearts are broken for Penny and the families. We had such fun playing the games he "hated". We are grateful we had the opportunity to travel for Thanksgiving vacations and enjoy his sense of humor! I will always remember his sage golf advice, "the bunker is not really there." We will be able to remember him every day as we enjoy the tables he made for us. He will be missed. Love Lee & Debi James

“ We've known Chuck for 10 years and we're always in awe of his craftsmanship from building office furniture to finishing his family room. Seems he always knew how to repair almost anything. And of course his favorite game was Mexican train 😊
