“ I was the lady in the first car at the light after they stopped traffic. That day had such an effect on me. I thought about him everyday. I thought about his family every day. I've been waiting and searching every day for this moment to say I'm sorry for your loss to his family. I'm praying for you all and just know how many other people out there are.

“ *My deepest sympathy to you both, Melody & Sean, for your loss. Hal was a close friend of mine. We worked together at AT&T in "special services". We had some great times. I retired before Hal but, our friendship continued. We'd try to get together and meet for lunch when we could. When on the phone, it seemed that we would talk for hours on everything from old times at the phone co, classic cars, or current topics.. I will greatly miss those times. I will keep him close in my heart and always be glad to know he was my friend. Till I see you again, your friend John Ryba*

“ *Hal was more like a brother to me than a cousin, we shared so many amazing times together. Camping and Hunting sitting around the campfire with our Gin & Tonics, Fishing in Canada. We rode our Harley's many many miles together to too many places to mention but memories I will NEVER forget. You'll be missed, love you brother.*
