“ *My very sincere condolences to the entire Gadosik family on their loss of a very special person. I worked with Bob for many years during our days with GE Lighting. Bob was a talented Engineer, dedicated and a personal friend whom I will surely miss. Whenever we were involved in a product or process problem he always did his homework and was correct in defining the problem with solid recommendations of the proper actions to correct the situation. His humor was always a breath of fresh air during trying times. Bob was not only an excellent Engineer but more importantly an honest and caring human being who will be missed. Hope you are in a better place Robert. May God welcome you with open arms for a job well done.*
