“ This photo was taken at Cleveland Clinic in Beachwood when Scott was working at D.E. Williams Electric. He was a good electrician and great guy to be around.

“ *It was a long time dream of mine to play in a jazz group where I had a great deal of freedom to improvise and choose what material we played. It's essential to find the right group of people to play with and Scott was an integral part of that. He was the finest drummer I've ever played with, and was a faithful friend for years. He also did some electrical work in my house at a time when I was financially strapped. I was a great admirer of how hard he worked at both his job and his musical pursuits. I know I'll never find another like him.*
